PP John Cl. HB Found a good computer guy

Speaker

Jude Walker has been a volunteer firemen in Point Pleasant for 18 years. He is in charge of the fire prevention program that is taught in the two grade school here in town. The Point Pleasant program is one on the top program in the state thanks to Jude and others who work very hard to make it happen. October 6th - 10th is Fire prevention week. This year it will be held at Ocean Road School

President Bob picked the Escape Ladder Program as his President's Project for this year. It is a ladder that rolls up and is kept in the second story bedroom of the school aged children. Jude and the fire dept. teach the kids how to use the ladder as well as other important points on what to do during a fire. Sept 10th all Club members have been invited to Ocean Road School as part of Fire prevention week

STUFF TO REMEMBER

- May is having an open house this Sunday for Baby Maria. All are invited
- The club is having a Car Ws
